Jon:

I got this table earlier but did not get the analytical results that Steve talked about in this update.

Thanks

Steve

You indicated you had analytical results attached. I did not get those.

Gary

1. Edwin went to Ingleside Monday 26 January 2015 to re gauge and resample Tank 26, 30 and 7 we have attached results.
2. Clear Water meet with him onsite, got samples and expect to have a bid

9596608

proposal this week to take or process oil and bottoms on site or at their facility in San Marcos.

3. With the recent inventory numbers the initial proposed plan is to pull material out of tank 7 and 30 while moving material out of Tank 26.

4. We will review what it is going to take to repair tank 12 so that it can handle and hold water from tank 26, 7 and 30 so that the water can be processed on site.

We will firm up timing this week so we can generate a schedule.

Steve

Jonathan/Steve

I need weekly updates based upon our last conversations. I need these by Friday.

Please send me an immediate update.

Thanks
Gary Moore
